TRUE BEAUTY HAS
THE POWER TO
INSPIRE AND ELEVATE.
IT IS TIMELESS, AS
ARE THE ARTISANS
WHO POUR HEART
AND SOUL INTO
ITS CREATION.

A fiercely independent spirit and a rich and prestigious history define Aston Martin as truly unique in the automotive world.

A RICH HISTORY, AN EXCITING FUTURE

Unrivalled prestige, unequalled craftsmanship, uncompromising standards. For their vision of 300 Biscayne Boulevard Way in downtown Miami, Aston Martin partnered with renowned developer G&G Business Developments LLC to translate its legendary design into an exclusive real estate venture. The result is a prestigious, one-of-a-kind building that represents the pinnacle of elegant living.

THE ART OF CRAFTSMANSHIP

"In this, our first residential development, the interiors are inspired by Aston Martin, but take into consideration Miami's tropical environment. Our design language is based on beauty and the honesty and authenticity of materials. It's simple and pure and it has an elegance attached to beautiful proportions. We are incorporating Aston Martin's DNA through subtle details and fine craftsmanship, with an emphasis on comfort. This building is for people who appreciate the finest quality and craftsmanship, who love the feeling of something that is timeless."

MAREK REICHMAN
EVP and Chief Creative Officer
Aston Martin

TIMELESS LINES, EXTRAORDINARY VISION

"Looking at the city of Miami and its powerful connection with the sea, the idea of smooth waves came instantly to our minds. The ripple of the water and the soft lines of its coastline made us wonder how to create a connection between architecture and Miami's distinct shapes. The work of carving a new niche in this city led to the creation of a luxurious Residential Tower that speaks in the language of the ocean - inspired by the rush of the breeze and the sail of a boat. Aston Martin Residences at 300 Biscayne Boulevard Way achieves an exquisite encounter between sea, city and wind."

THE TEAM

ASTON MARTIN

Gaydon is the birthplace of all contemporary Aston Martins. It is the passion and pride of our workforce, their meticulous execution of every detail that defines an Aston Martin. To convey the effort, skill and determination of our craftsmen and women or their pride when another piece of our unique artwork is ready for its owner is almost impossible. To see the Gaydon production facility in action is to know that every car and our future is in safe hands.

Headquartered in Miami, G&G Business Developments is a luxury Real Estate company recognised for quickly establishing success in the global market, attracting investors seeking well-funded, innovative projects and delivering exceptional results. G&G Business Developments is managed by its owners who contribute their solid management knowledge, strategic business vision, and the financial support to nurture new Real Estate projects.

BMA - Bodas Miani Anger Arquitectos & Asociados is an integrated architectural office focused on the design of buildings of all typologies and scales. Founded in 1989 BMA has become one of the most important offices in the region being awarded national and international awards such as ICSC, Vitruvio and MNBA among others. Our biggest challenge is the creation of intelligent and original solutions for each one of our projects. We believe the best design is the result of an open-minded search, with no conditioning or preconceptions.

By combining unparalleled local knowledge with an established international clientele, Miami-based Cervera Real Estate has been South Florida's industry leader in luxury condominium sales for more than four decades. Cervera was the area's first brokerage to market extensively on an international scale. With a team of more than 400 professionals, the company has exclusively sold over 110 condominium projects, closed more than 50,000 units and represented some of the most prominent developers. Today, Cervera remains the broker of choice for the sale and launch of South Florida's newest luxury developments.

The Purchaser is prohibited from using the name “Aston Martin” or any other name or words that are in Aston Martin’s reasonable determination confusingly similar thereto as part of the name of any entity that Purchaser uses to hold title to the Unit or in any other manner in connection with Purchaser’s purchase or ownership of the Unit.

The Purchaser acknowledges that the Unit and Condominium were not developed or sold by Aston Martin or AM Brands or the affiliates of either of the companies and waives and releases Aston Martin and AM Brands from any liability, costs and damages arising with respect to: (i) the Developer’s use of any deposits delivered by the Purchaser to the Developer or an escrow agent pursuant to the sale contract, and (ii) any representations or defects or claims whatsoever relating to the marketing, sale, design or construction of the Unit or the Condominium (including all buildings and improvements and appurtenances thereto), including, without limitation, with respect to sales and marketing misrepresentations and construction defects.

Stated square footages and dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls between units and in fact vary from the square footage and dimensions that would be determined by using the description and definition of the “Unit” set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes all interior structural components and other common elements). This method is generally used in sales materials and is provided to allow a prospective buyer to compare the Units with units in other condominium projects that utilize the same method. Measurements of rooms set forth on this floorplan are generally taken at the farthest points of each given room (as if the room were a perfect rectangle), without regard for any cut outs or variations. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length and width. All dimensions are estimates which will vary with actual construction, and all floorplans, specifications and other development plans are subject to change and will not necessarily accurately reflect the final plans and specifications for the development.
